

NEWS MEDIA SERVICES AT BOARD MEETINGS

The Board of Education recognizes its responsibility to keep the public informed of its policies and actions. The Board, therefore, will assist the press in securing adequate information regarding problems facing the Board and the decisions the Board makes. This includes the presence of responsible representatives of the press, radio, etc., at regular Board meetings. Time may be set aside following each Board meeting for the press in order to clarify items and obtain additional information relating to the meeting agenda.
