

STAFF PARTICIPATION IN COMMUNITY ACTIVITIES

As a staff person working in the Schroon Lake community and drawing a paycheck from community tax funds, it is imperative that all members of the staff participate, where possible, in community activities. This serves three important functions: (a) it puts members of the school staff in touch with other community members, (b) it builds good relationships between the community and the school, and (c) it provides an excellent opportunity for staff members to fulfill their rolls as model citizens in their community.
