

## **COMMENCEMENT EXERCISES**

The Board of Education directs the Superintendent of Schools to administer the graduation exercises. In the process of developing the program for graduation consideration must be given to:

8. traditional parts of the ceremony;
9. recognition of all deserving students;
10. appropriate. rehearsed speeches; and
11. unique aspects that will produce fond memories for the particular class that is graduating.

In some particular cases where a question may arise about the date, time, or other factor about graduation that is controversial, the parents of the graduates will be consulted for their input before a decision is reached.
