

STUDENT SOCIAL EVENTS

The Board of Education acknowledges that part of education is learning to be a social human being. Student social events are planned for all students in the respective grades invited. The administration will develop forms for the authorization of an event including chaperones, costs, and rooms to be used. Where a student event occurs beyond the working hours of the schools custodial force, a charge for custodial help will be given to the group sponsoring the event.

The Board acknowledges that social events are outside the normal academic realm and therefore the privilege of attending such a function is based on the disciplinary code drawn up by the administration.

Note: Prior Policy, Policy Manual (Student Social Event, IGDC)
