

## **SUPPORT SERVICES GOALS**

Support services, which include safety and maintenance programs, transportation, food services, insurance management and office services, are essential to the successful functioning of the school system. Management of auxiliary operations is therefore an important responsibility of the district administration. It should be remembered, however, that education is the district's central function, and all support services will be provided, guided, and evaluated by this requirement.

In order to provide services that are truly supportive of the educational program, the Board of Education establishes these goals:

1. To provide a physical environment for teaching and learning that is safe and pleasant for students, staff, and the public;
2. To provide safe transportation and nutritious meals for students who use these services; and
3. To provide timely, accurate, and efficient support services that meet district needs and promote district goals.
